

GUIDE: TRANSLATION OF DIPLOMAS AND CERTIFICATES

I. General information

The JKU Admission states: "Foreign-language documents (unless issued in English by the responsible authority) must be accompanied with German translations provided by an Austrian state-certified translator. If the documents have been translated outside of Austria by a certified translator, the translations must be certified in the same way as the documents." (https://www.jku.at/en/degree-programs/prospective-students/register-to-enroll/bachelors-degree-diploma-degree/). JKU Admission also accepts documents that are translated from Ukrainian into English language.

In most cases, translations by certified translators of the following documents are required by the JKU Admissions Office (on average 2-4 documents per student):

- School-leaving certificate (attestation)
- Proof of university entrance examination (our understanding is that in most of the high school certificates it says what three subjects you completed for getting into university; some completed even more difficult entry tests and have proof of that – in these cases, admission might not need the proof of university entrance examination – but this is assessed on a caseby-case basis)
- Language certificate (DE or EN, depending on program)
- Bachelor's certificate (if available)
- Proof of years of study/individual semesters (if available)

Nevertheless, please check with the JKU Admissions Office about which translated documents you need in particular.

We have contacted all certified translators whose translations are accepted at JKU Admissions Office (see Attachment A). We have received three offers from three certified translators who will do translations based on a copy of your graduation certificate (into German language). You can find the list of those translators including the offers in Attachment C.

We recommend requesting a non-binding offer from the respective translator for translation. It is important that you send the documents you want to be translated in order to receive an accurate offer. We also recommend that you inquire about the language in which the documents can be translated. Most of the translators on the list seem only to translate into German (but most of them not English) — so be clear about in what language you want it to be translated. Certified translation takes time — so the earlier you start the better.

We will be happy to assist you with any questions regarding the translation process. If you have an issue with financing the translation let us know too.
